Education:

UC Berkeley Coding Bootcamp

Graduating 3/23

Northeastern University
College of Criminal Justice

Bachelor of Science
2005

Work Experience:

Allstate Insurance

2005 - 2017

Data Analyst Special Investigations Unit

I used Tableau to analyze trends in the Western part of the United States. I was responsible for creating reports and presenting my findings. I worked to find data points that would indicate that there might be fraud in what was being claimed.

Anti-Fraud Alliance
Website Coordinator

2012-2016

While I was working at Allstate, I had the opportunity to be the website coordinator for the organization. I was responsible for making sure the website was up to date. It was a word-press site and I used basic HTML and CSS to keep the site looking good.

Skills:

Javascript

CSS (frameworks Bootstrap and Bulma)

React

Express

MongoDB

MySQL

IndexedDB

Goals:

I am looking to expand on the knowledge I gained during the coding bootcamp. The structure of this internship is impressive and it would be a great way for me to gain some more valuable experience as I make this career change.

Hobbies:

I play goalie in ice hockey. I love being an integral part of the team and having teammates have to rely on my performance to help us win games.

I recently started playing Pickleball. I love trying new things and I am highly competitive. I am going to be playing in my first tournament to get an official ranking next month.
